

When power is a problem, what can you do about it???

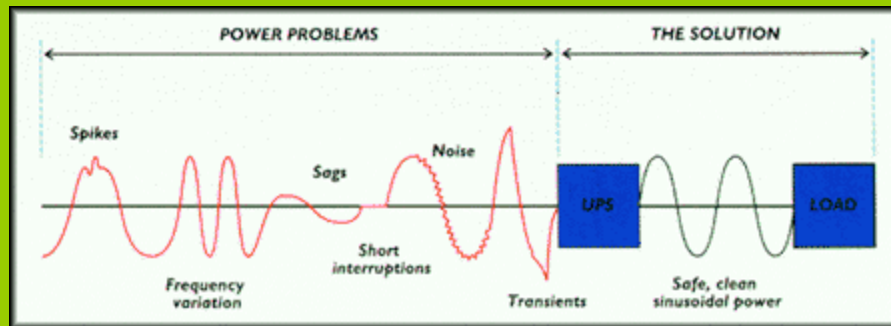

Today's sensitive electronic technology requires very clean power to ensure proper system functionality. Traditional (line-interactive) UPS technology does not provide this clean power, and can leave your system vulnerable to spikes, frequency variations, sags, power interruptions, line noise and transient failures. Facilities with generator backup systems are particularly vulnerable.

Sanyo-Denki True On-Line power systems (UPS) utilize the latest in emergency power sources featuring true double conversion technology which provides clean, safe sinusoidal (smooth sine-wave) power required for today's advanced VoIP technology.

A Sanyo-Denki UPS protects against voltage spikes and power interruption which helps prevent catastrophic system failure, reduces service interruptions and dramatically extends the life of your hardware.

Data corruption, disk failure and circuit board damage are common results of power issues. An investment in Sanyo-Denki UPS technology protects your investment in system hardware, reduces downtime, eliminates unnecessary service calls and helps you provide dependable Voice over IP telephony service. Quick Guide Equipment Protection

VoIP Systems

<u>VoIP types:</u>	<u>UPS Size</u>	<u>Sanyo-Denki UPS Part Number</u>	<u>Battery Time (Base Units)</u>
Nortel BCM50	1.0kVA	A11H102A011USP (Rack type)	87 minutes
Nortel BCM200	1.5kVA	A11H152A011USP (Rack type)	30 minutes
Nortel BCM400	1.5kVA	A11H152A011USP (Rack type)	12 minutes
Nortel BCM450	1.5kVA	A11H152A011USP (Rack type)	12 minutes
Cisco (AS5300)	1.0kVA	A11H102A011USP (Rack type)	12 minutes
Cisco (AS5350)	1.0kVA	A11H102A011USP (Rack type)	48 minutes
Cisco (AS5400)	1.0kVA	A11H102A011USP (Rack type)	30 minutes
Avaya (IPO400)	1.0kVA	A11H102A011USP (Rack type)	87 minutes
Avaya (IPO500)	1.0kVA	A11H102A011USP (Rack type)	87 minutes
UPS – 3 Year Warranty (including batteries)			

Above UPS units stock items with

UPS Safety Regulations:

UPS (UL1778)

Complete with fire-retardant batteries

NOTES:

- 1) Additional battery packs are available when required backup times are in the 1 hour, 2 hour and above.***
- 2) Please call xxxx directly for the additional battery battery packs for your specific application.**
- 3) TOWER type UPS also available**
